HermesAI

REAL-TIME
CONVERSATION ASSISTANT

Conversations move fast.
Be ready with the perfect response
and insights - exactly when you need it.

APPROACH

Live Input Streaming

Capture calls, meetings, or chats in real-time for seamless analysis.

AI Processing

Leverage GPT-powered intelligence to analyze conversations as they happen

Smart Suggestions

Get real-time guidance with next-best responses, emotional cues, and key call metrics.

Gamified AI Dashboard

Track performance, trends, and improvements through an interactive Streamlit app

BENEFITS

Real-Time Listening
Plug into live conversations and support agents exactly when it matters.

GPT-Powered Guidance
Generate empathetic replies that boost confidence and improve interactions.

Reduce Agent Stress
No guesswork in tough chats—your smart assistant guides, not micromanages.

Customizable for Any Industry
Easily adapts to SaaS, Finance, CPG, Healthcare, and more.

Gamified Dashboard
Keep agents motivated with streaks, badges, and progress-driven rewards.

Link Agent Behavior to KPIs
Predict satisfaction, churn, and resolution time with smart analytics.

USE CASE

Customer Support Teams
Tackle high-stress calls with empathy cues and real-time resolution tips.

Sales & Account Reps
Adapt messaging on the fly and handle objections with confidence.

Students
Present with clarity and confidence using real-time speaking support tools.

Founders & Managers
Lead impactful 1-on-1s with emotionally aware, data-driven conversation cues.
